

IESBA Post-Implementation Review (PIR) Survey

Responding to Non-Compliance with Laws and Regulations (NOCLAR®)

Introduction

This survey is only applicable to respondents that have adopted or use or benefit from the [Responding to Non-Compliance with Laws and Regulations \(NOCLAR\)](#) provisions in the [International Code of Ethics for Professional Accountants \(including International Independence Standards\)](#) (the Code). Sections 5260 and 5360 as contained in the [International Ethics Standards for Sustainability Assurance \(including International Independence Standards\)](#) (IESSA), and conforming amendments to Sections 260 and 360 arising from the development of the IESSA, are outside the scope of this survey and only become effective in December 2026.

1. The International Ethics Standards Board for Accountants (IESBA) is conducting a post-implementation review (PIR) of the NOCLAR provisions in Sections 260 and 360 of the Code.
2. This survey seeks to obtain input from a broad range of stakeholders to enable the IESBA to determine:
 - (a) Whether the NOCLAR provisions have achieved their intended purpose by identifying:
 - (i) Benefits from applying the provisions; and
 - (ii) Any practical challenges or questions regarding their implementation, including whether they are being consistently understood and applied; and
 - (b) What actions, if any, are needed by the IESBA to address identified matters.
3. The responses received will be analyzed for purposes of providing feedback to the IESBA and in developing recommendations for any actions.
4. Recognizing that some respondents may wish to discuss certain NOCLAR or NOCLAR-related matters on a confidential basis instead of documenting them in writing when responding to this survey, respondents are welcome to reach out to the IESBA Project Team (email jeanneviljoen@ethicsboard.org and kamleung@ethicsboard.org) to discuss such matters confidentially. In such circumstances, respondents are requested to discuss the matters on an anonymized basis.
5. The survey comment period starts on April 1 and ends on July 30.

Survey Responses to be Made Public

6. Unless confidentiality is specifically requested, respondents' submissions will be considered a matter of public record and will be posted to the IESBA's website. Where confidentiality is requested, respondents are nonetheless requested to provide any detailed input on an anonymized basis.
7. Some questions ask for details, examples or sharing of relevant reports or materials. Respondents are requested to provide such information on an anonymized basis.

Survey Instructions

8. Respondents to the survey are asked to provide their responses only on the questions applicable to

the stakeholder group to which they belong:

Overview and Key Intended Outcomes of the IESBA NOCLAR Provisions

10. The IESBA NOCLAR provisions establish a response framework to guide auditors, other PAPPs, and PAIBs in deciding how best to act in the public interest when they become aware of NOCLAR or suspected NOCLAR.
11. NOCLAR is any act of omission or commission, intentional or unintentional, committed by a client or employer, or by those charged with governance (TCWG), by management or by other individuals working for or under the direction of a client or employer which is contrary to the prevailing laws or regulations.
12. For a more detailed overview of the NOCLAR provisions of the Code, please access the following link [here](#).
13. Key intended outcomes of the NOCLAR provisions in the public interest include:
- Ensuring that PAs respond in a timely way to identified or suspected NOCLAR.
 - Rectifying, remediating, or mitigating the adverse consequences of identified or suspected NOCLAR to stakeholders and the general public.
 - Deterring the commission of NOCLAR.
 - Stimulating increased reporting of identified or suspected NOCLAR where required by law or regulation, or where determined appropriate under the Code in the public interest.

Adoption (full or with modifications) refers to the formal acceptance and incorporation of the IESBA standards into a jurisdiction's national laws, regulations or professional requirements.

Convergence is where a jurisdiction aligns its national ethics (including independence) standards or provisions with the IESBA standards through a process that seeks to eliminate or minimize differences between the IESBA and national standards or provisions. This includes a process where an IESBA standard is used as a basis to develop the local standard or provisions.

Inquiries and questions

7. Which specific provisions in the local NOCLAR provisions has your organization commonly received inquiries or questions about? *(Please provide details, including from which stakeholder groups the inquiries or questions arose)*
- (Section 260.3/360.3 of the Code) A PAIB enquired about the Applicability of NOCLAR provisions as to whether all professional accountants, regardless of nature of employing organizations, are subject to the NOCLAR provisions.
 - (Section R360.6 of the Code) A PAPP enquired about the identification of the appropriate authority or reporting channel for suspected NOCLAR.

Level of understanding

8. Do users of your organization's standards have an overall understanding of the local NOCLAR provisions? *(Please explain the basis for your response, including how your organization evaluates the overall understanding of the local NOCLAR provisions by users of your standards)*
- Yes
 - Somewhat
 - No
 - Not known or no data available

Basis for our response: Our local survey results were rated "Somewhat," indicating that users of the standards have a basic understanding of the local NOCLAR provisions. This assessment is also supported by the minimal number of technical enquiries received in response to Q7 and no local implementation issues in relation to NOCLAR were identified at the Ethics Committee's meetings, suggesting that the provisions are broadly understood. Nevertheless, some practice challenges were identified, as explained in Q12 below.

Legal protection

9. In your jurisdiction, does legislation or regulation exist (e.g., under whistleblowing laws or regulations) that provides protection from civil, criminal or professional liability, or from retaliation, when NOCLAR or suspected NOCLAR is disclosed to an appropriate authority? Please provide details.
- If yes, is the protection under the relevant law or regulation perceived to be effective? Please explain your response.
- Hong Kong does not have a single legislation that specifically provides the relevant protection.
 - Protection depends on which law is breached, to whom the disclosure is made, and under which ordinance it falls.

Observed outcomes (benefits and challenges)

10. Has your organization observed any trend in instances of NOCLAR reported or escalated?

If so, please describe the trend and indicate the period for which this trend has been observed, as well as the general nature of the NOCLAR commonly observed.

11. Based on your organization's observations, has the application of the local NOCLAR provisions been effective in deterring the commission of NOCLAR, or rectifying, remediating or mitigating the consequences of NOCLAR? *(Please explain the basis for your response and provide any relevant details, including any supporting materials or reports)*

Our stakeholders generally observed that the NOCLAR provisions have contributed to increased awareness of non-compliance with laws and regulations. The provisions have also provided a more structured approach to handling suspected non-compliance, particularly in terms of internal escalation, consultation, and documentation processes.

A stakeholder who is a PAIB, responded in our local survey that he/she encountered NOCLAR in his/her work regarding tax filings, tax payments and the business model's fund flows. He/she expressed that the NOCLAR standards enabled him/her to better understand the available options and how to proceed in accordance with the Code's framework.

However, a major practical challenge is to determine whether there is sufficient and credible evidence. Our stakeholders expressed that in many cases, practitioners only have red flags or suspicions, but not enough proof to make a final judgment.

12. Has your organization observed any challenges in the application of the local NOCLAR provisions? *(Please provide details, including specific provisions that caused particular challenges and why, as well as any actions taken to address them)*

Our stakeholders highlighted the following challenges:

- In practice, reporting or escalating non-compliance can be challenging as it may conflict with employer expectations, confidentiality and job security.
- Auditors often have to make decisions under time pressure and reporting deadlines, which makes the application of NOCLAR difficult in practice. A common difficulty is that many cases involve suspected rather than proven non-compliance, making it hard to decide whether further reporting or disclosure is required. In addition, auditors do not have investigative power. Once they raise red flags or suspected non-compliance issues with the client, they are unable to obtain further evidence, such as full bank records or other supporting documents. As a result, many cases do not reach the stage of reporting due to evidential limitations.
- In practice, management or the audit committee may request further investigation before taking action. This requires audit firms to engage in continued internal communication, documentation, and fact-finding. Such processes can require considerable time and effort before any decision on escalation is reached.
- Situations where further investigation would require expertise or procedures beyond the auditor's role. Any further fact-finding may require legal powers, or expertise beyond the scope of a normal audit. In such cases, auditor's role is limited.

- There may be an expectation gap between the international standard setter and local audit practitioners. NOCLAR may be interpreted as requiring auditors to look into broader matters, such as environmental protection or public health and safety (ref. section 360.5 A2 of the Code), even where these issues fall outside their professional competence. This could unduly expand the auditor's responsibilities.
 - Several factors that complicate decisions on whether and how to disclose NOCLAR externally, which include:
 - Uncertainty regarding the appropriate authority to which a report should be made, particularly where multiple regulators or overlapping legal frameworks are involved (e.g. anti-money laundering, corruption, corporate governance, or market misconduct); and
 - Concerns that external reporting may adversely affect the client relationship and future engagement opportunities, creating tension between professional responsibilities and commercial considerations.
 - Some stakeholders felt that Hong Kong's whistleblowing and regulatory protection framework is not comprehensive, which exposes professional accountants to potential legal liability or retaliation if a report for non-compliance or suspected non-compliance is later found to be incorrect, and in extreme cases, raises concerns about personal safety. These factors make auditors more cautious about reporting.
 - Small and medium-sized firms may face additional challenges due to more limited access to in-house legal expertise, cross-border regulatory knowledge, and resources. Larger firms may have more structured support systems, but respondents noted that many cases ultimately still depend on professional judgment and may not lead to definitive evidence.
 - Overall, section 360 of the Code provides useful ethical guidance in principle, but in practice, its effectiveness is constrained by evidential uncertainty, potential legal risk due to breach of confidentiality, client relationship concerns, and the difficulty of deciding when to escalate a matter.
13. Has your organization observed any trends where professional accountants or accounting firms encountered NOCLAR or suspected NOCLAR but did not apply the local NOCLAR provisions in whole or in part?
- Yes, the provisions were not applied in whole (*Please explain why the provisions were not applied (e.g., lack of evidence for suspected NOCLAR, confidentiality issues, etc.)*)
 - Yes, the provisions were only partially applied (*Please explain which provisions were not applied and why (e.g., lack of evidence for suspected NOCLAR, confidentiality issues, etc.)*)
 - No, not observed

Other comments

14. From your perspective, what further efforts should IESBA pursue to enhance the effectiveness of implementation of the IESBA NOCLAR provisions globally? (*Please explain your response*)

Our stakeholders considered that the IESBA could prioritize facilitating its practical implementation over developing new or revised provisions to enhance the global effectiveness of the NOCLAR framework. For example, the IESBA may consider the following to support consistent application of NOCLAR provisions:

- Providing guidance on assessing “credible evidence”, particularly in situations involving red flags, incomplete information, or conflicting evidence.
- Developing practical implementation guidance, for example:
 - Case studies or role-specific examples that illustrate how NOCLAR scenarios are handled in practice.
 - Decision trees or flowcharts that guide practitioners through key decision points (e.g. escalation and reporting).

15. Do you have any other comments or specific matters the IESBA should consider as part of this PIR on the IESBA NOCLAR provisions (including on any benefits arising from using the local NOCLAR provisions, or on matters of translation)?

- The NOCLAR provisions have improved public confidence in professional accountants and accounting firms in responding to NOCLAR or suspected NOCLAR, by establishing a clear, consistent ethical framework. However, the level of confidence ultimately depends on consistent and robust application in practice.
